TIENS TS MASKS
Glowing, relaxed and younger skin
Usage

Apply mask after cleansing and toning.

The mask has cut outs for your eyes and mouth.
1. Remove the white film.
2. Put the silk mask inwards to aim at the position of eyes and lips.
3. Apply the mask on the face and remove the blue, upper layer.
4. Adjust the mask to fit properly the face.
5. Remove the mask after 15-20 minutes and gently massage the face to absorb the remaining essence.

It is suggested to use a mask 2-3 times a week.

TIENS TIME SHADOW MASKS

The feeling of being pampered like you are at a spa from the comfort of your own home.
TS Moisturising Mask

The mask is mainly made of snail essence which is a deeply hydrating substance. Other moisturising agents like aloe leaves juice, starfish extract, pomegranate extract and hyaluronic acid leave the skin smooth and supple. The mask provides in depth hydration. At the same time, it forms a hydrating layer to protect your skin from dryness.

The blend of botanicals and moisturising components effectively repairs skin and eliminates wrinkles to make skin younger looking and radiant. The snow lotus extract (Saussurea involucral) gives skin anti-aging protection and is especially beneficial for mature skin. The skin is left hydrated, luminous and glowing.
TS Revitalizing Mask

The mask offers advanced abilities to repair skin and protect from free radicals. Essence of orchid and the snow lotus extract (Saussurea involucral) revitalize and stimulate the skin making it soft, smooth and much younger looking. The mask provides antioxidants to fight wrinkles.

Wheat gluten, hyaluronic acid and Spilanthes acmella flower extract (in Brazil, where the plant is native, it is called Jambul nourish skin, impart moisture-retaining qualities to dry or mature skin.

Additionally, Spilanthes acmella flower extract helps to relax facial tension and diminish the appearance of expression lines and wrinkles. It acts directly on the fibroblasts and collagen fibres present in our skin by using their innate ability to move and contract.

When our fibroblasts are stimulated with spilanthol, the fibroblasts in our skin contract which in turn pulls on the collagen fibres which tightens and firms the skin, flattening lines and wrinkles and visibly reducing them by relaxing facial tension. In cosmetology, that ability to inhibit contractions in subcutaneous muscles, notably those of the face, is referred to as “botox-like action“. The skin is tender, supple, visibly relaxed and younger.
3 reasons to apply mask right now

Everyone should introduce masking into their skin care regime. For a few relaxing minutes a day, your skin will go through a noticeable transformation that you can see and feel.

Glowing skin
Masks improve overall skin condition, leave your skin softer-feeling and smoother-looking. Give you radiant glow and more refreshed, younger appearance.

Relaxation
Face masks do not just offer results that improve the appearance of your skin. They can also be quite therapeutic. Using a mask should be treated as a luxury. Set aside a bit of time for yourself when you decide to apply a mask and let the magic of the mask begin. It will not only relax the mind and spirit but will also leave you with fabulous looking skin.

Helps other cosmetics to work better on your skin
Masking helps other skin care products work more efficiently. If you want a serum and cream to be absorbed quicker and deeper, then a face mask is a must. By masking regularly you can ensure that other cosmetics will perform better providing you with the results you are looking for.
What is the better way to pamper your skin and de-stress than with a calming face mask? Do your skin a favour! Apply a mask!
